

BRC-EE260 USB Camera

▶ Feature

The BRC-EE260 USB Web camera is intended for Planex BRC-Series routers. With a combination of these two products, you can easily transmit live images through the Internet.

■ Image distribution as easy as never before

The BRC-EE260 Web camera lets you experience the image distribution over the Internet in real-time. The camera, simply connected to the router's USB port, allows you to monitor your child, or pet at home. * The mobile phone supporting JPEG browser is required.

■ 300,000-pixel CMOS sensor

The BRC-EE260 Web camera features a 1/3-inch CMOS image sensor with 300,000 pixels. Capable of handling up to 30fps, the product can serve as a "Live camera" and is your best solution for real time distribution of video images.

■ Simple USB Connection

Simply connect the BRC-EE260 Web camera to the router's port, through the Web configuration screen set it ON and select desirable bit rate. The camera captures images and transmits streaming videos automatically.

■ Compact body

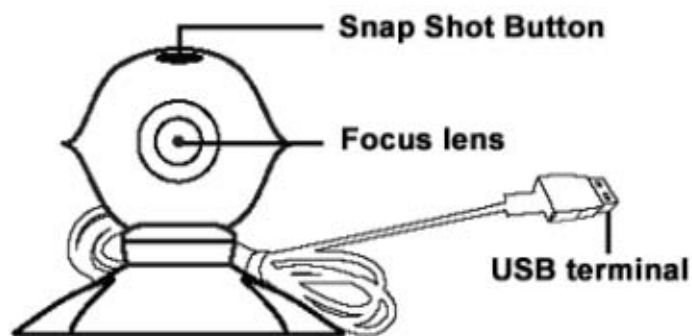

The pint-sized body takes little space, while the camera's built-in pan-tilt function allows to adjust Pan angle (horizontal): 360degree, and Tilt angle (vertical): +-16degree parameters.

▶ Specification

Model Number	BRC-EE260
Image Sensor	1/3inch CMOS
